

PRIVATE LESSONS

VOICE. PIANO. GUITAR. UKULELE.

Private lessons are great for students of all skill levels. These one-on-one classes focus on building musicianship appropriate to a student's level, and are tailored to a student's interests. We believe that lessons should be fun, informative, and efficient. Students will begin to understand their chosen instrument, learn theory appropriate to their level, work on musical expression, and most importantly, build confidence. A love of music and performing starts with an encouraging and fun environment!
